## 13th ifo Dresden Workshop on Regional Economics

**September 28-29, 2023, in Dresden, Germany**

The ifo Institute, Dresden Branch, announces the 13th ifo Dresden Workshop on Regional Economics. The workshop aims at facilitating the networking of young scientists and at promoting the exchange of their latest research. Relevant topics include regional structural change, development economics, economic history, and public economics. Preference is given to empirical papers estimating causal inferences in a spatial context, natural experiments, or recent geo-data and respective methods.

We specifically encourage PhD students and post-doctoral researchers to submit their research. Each paper will be allocated 45 minutes, to be divided between the presentation, a short discussion by an assigned workshop participant and a general discussion.

### Submissions

Please submit your (preliminary) paper by **June 30, 2023**, via the workshop [website](#). Alternatively, check the ifo website for forthcoming conferences. Acceptance decisions will be announced by **July 14, 2023**.

We are looking very forward to seeing you in Dresden.
