## 14th ifo Dresden Workshop on Regional Economics

**September 12-13, 2024, in Dresden, Germany**

The ifo Institute, Dresden Branch, announces the 14th ifo Dresden Workshop on Regional Economics. The workshop aims at facilitating the networking of young scientists and at promoting the exchange of their latest research. Relevant topics include regional structural change, development economics, economic history, and public economics. Preference is given to empirical papers estimating causal inferences in a spatial context, natural experiments, or recent geo-data and respective methods.

We specifically encourage PhD students and post-doctoral researchers to submit their research. Each paper will be allocated 45 minutes, to be divided between the presentation, a short discussion by an assigned workshop participant and a general discussion.

We are pleased to announce that Ines Helm, professor of economics at LMU Munich with a research focus on labor and urban economics, will attend the workshop as keynote speaker.

### Submissions

Please submit your (preliminary) paper by **June 14, 2024**, via the workshop [website](#). Alternatively, check the ifo website for forthcoming conferences. Acceptance decisions will be announced by **June 28, 2024**.

We are looking forward to seeing you in Dresden.
